

Business Online Banking

Every business—small or large, new or established—needs a robust online banking service. Bank of Utah's Business Online Banking suite allows you to streamline money management. Manage business banking on your schedule using a secure, user-friendly platform.

In addition to the personal banking features, businesses can customize the online banking suite with dozens of basic and advanced cash management services.

Online business banking services include:

eSTATEMENTS

View, download, and print up to 24 months of eStatements from your online banking page.

VIEW AND SEARCH ACCOUNT BALANCES AND TRANSACTIONS

Use our online banking services to quickly view current and past balances, as well as your transaction details. With 18 months of keyword-searchable history, you can easily find details of any transaction.

TRANSFER FUNDS

Easily transfer funds between your Bank of Utah accounts. You will receive a confirmation allowing you to verify the details of your transaction.

MULTI-USER SETUP

Grant access to your online bank account to as many users as you would like, while still maintaining control of which accounts each individual can see and manage. Our online banking system allows you to set up varied user rights to ensure that your business banking information is secure.

ONLINE BUSINESS BILL PAY

An easy and secure way to quickly make one-time or recurring payments to vendors without issuing a check.

ACCOUNT RECONCILIATION

For streamlined account reconciliation, connect QuickBooks or Quicken to your online bank account

information and gain access to Excel, QuickBooks, or Quicken download capability.

'NOTIFY ME' ALERTS AND BALANCE MONITORING

Keep tabs on your account(s) with email or text message alerts. Choose from 15 different alerts, including when payments are coming due, checks clear, ACH items hit, and balances fall below a certain amount. Additionally, you have the ability to place stop payments from your online bank account.

MOBILE BANKING

Download our apps for smart phones, or use your standard mobile phone to receive account balance and transaction updates with a simple text message. [Download mobile banking apps](#)

COMBINED PERSONAL AND BUSINESS ACCOUNT ACCESS

Business owners have the option to create a combined view of all of their Bank of Utah accounts under one login.

TREASURY MANAGEMENT SERVICES

With online business banking, business owners can more easily process all their treasury management transactions including enhanced ACH, wire transfer, payroll, Remote Deposit and more. Standard fees apply.

IMPROVED SECURITY

We have a built-in security system so you never need to navigate multiple layers of authentication. On top of using 128-bit encryption software and high-end firewalls, we monitor each user's online banking behavior and are alerted if any activities are out of the ordinary.
